Summary

I am a founder and engineer in Kozhikode, Kerala, running two software companies with my co-founders: Txtudio Coretech (since 2025) and Lofritex IT Solutions (since 2024). I work plan-first, direct AI coding agents and ask for file-and-line evidence in security reviews. I hold a B.Tech in Computer Science and Engineering from College of Engineering Vadakara, where I founded the IEEE Computer Society chapter.

Experience

Txtudio Coretech Private Limited
Oct 2025 – present

Founder, CEO and Managing Director

I co-founded Txtudio with Arun Rajanikanth (Director) and Devang C V (COO) and lead it from Kozhikode as CEO and managing director. We build software for the work that can't go wrong.

- Four products: Workeron Suite, Snaptiqz, DoYourDesign and Audit Management Solution
- Recognised by Kerala Startup Mission and Startup India (DPIIT)
- Company-reported: 500+ events and 25,000+ tickets on Snaptiqz, 10+ companies on Workeron
- Snaptiqz is listed as a partner of Kerala Police HAC'KP 2026

Lofritex IT Solutions LLP
Jul 2024 – present

CEO and Founder

I co-founded Lofritex with Shibin Rasheed and Nandu Krishna T (CTO) and lead it as CEO. We build custom software, ERP, payroll and inventory systems, and web and mobile apps for clients in India, Saudi Arabia, Sweden and Dubai.

- Our product, Manage Matey ERP, grew out of a contractor ERP built for a client in Saudi Arabia
- Client work includes the Mitee Interiors website, built in Astro, and a web page for Gear Monkey
- Company-reported: 50+ projects, 10+ team members and clients in 4+ countries

Acodez
2023 – 2025

Associate Software Engineer, then Lead Engineer

I joined Acodez as an associate software engineer and grew into the lead engineer role, leading a software development team and managing infrastructure.

CEV Innovation and Entrepreneurship Development Cell, College of Engineering Vadakara

Mentor

I am a mentor in the Innovation and Entrepreneurship Development Cell (IEDC) at College of Engineering Vadakara, where I studied.

- Listed in the IEDC team as Founder, Lofritex and Txtudio
- Lofritex and Txtudio both appear among the cell's entrepreneurship initiatives

Leadership

IEEE Computer Society Student Branch Chapter, College of Engineering Vadakara
Nov 2020 – Feb 2023

Founding Chairperson

I founded the chapter and chaired it for over two years. In 2021 I ran a Git, HTML, CSS and JavaScript task series for students, published as seven repositories on the chapter's GitHub organisation.

Selected projects

Blockchain-as-a-Service 2023

Final-year project: a SolidStart and TypeScript frontend for writing, compiling and deploying Solidity contracts, with interaction UIs generated from the ABI and scoped API keys.

IoT fingerprint attendance 2022

ESP8266 firmware with a fingerprint sensor, reporting to an Express admin app on Firebase; deleting a student also removes their fingerprint from the device.

Travelian 2022

Travel review platform built on the well-known YelpCamp course architecture, then extended with an admin dashboard, rating model, profile page and admin CLI.

iNSiGHT 2023

Civic-transparency dApp built in about eight hours with SolidStart, web3.js and MetaMask; won a hackathon at CAPE Fest.

Rust Sass watcher 2024

A small Rust binary that watches a folder and compiles SCSS to compressed CSS with grass and notify, skipping partials.

Skills

Languages	TypeScript, JavaScript, Rust, Kotlin, Solidity, C++ for ESP8266 firmware, Python, HTML and CSS
Web	Astro, SolidStart, React, Node.js, Express, MongoDB, Firebase, Tailwind CSS, Vite
IoT and Web3	ESP8266 (NodeMCU), PlatformIO, Adafruit IO, web3.js, MetaMask
Mobile and tooling	Jetpack Compose, Docker, Git and GitHub
Product domains	Business suites: HR, CRM, projects, CRM, Forms, Events and ticketing, ERP, Integrations
Ways of working	Plan-first delivery, Directing AI coding agents, Evidence-based security review, Architecture decisions

---

Education

College of Engineering Vadakara 2019 – 2023

B.Tech in Computer Science and Engineering

Certifications

Full-stack Developer , Udemy May 2022

TypeScript Mar 2024

Ethical hacking , Udemy
